app > controllers > external > 🔴 users_controller.rb

```ruby
1  class External::UsersController < ApplicationController
2    def index
3      url = "https://reqres.in/api/users?delay=3"
4      @users = JSON.parse(URI.open(url).read)["data"]
5    end
6  end
```

```erb
app > views > external > users > <> index.html.erb
1  <%= turbo_frame_tag "users" do %>
2    <div class="○○○">
3      <%= render partial: "user", collection: @users %>
4    </div>
5  <% end %>
```
